Step 2 - Open the New File Once you have installed Photoshop Elements, you will see a File menu on the top left. In here, you can create a new document and open an existing file. Open a new file by choosing the New icon or the File icon (see above). The New icon is at the top-left corner of the application. Select a folder location on your hard drive and choose an image. Click OK to start the new document.

Step 3 - Add Basic Document Paints The first step in any Photoshop Elements editing is to add some basic document paints. For beginners, this means adding a new layer and adding a color. To add a new layer, click the New Layer icon (icon in the Layers palette).

Step 3 - Add a New Layer Choose Edit > Free Transform (F) to add a Free Transform Tool to your document. The corner of the circle can be used to resize the image. You can also drag the line

Need to know What is it? Hand-drawn adventure game on the go. Expect to pay £15/\$20 Developer unknown Publisher unknown Reviewed on Intel i5-4590, 8GB of RAM, GeForce GTX 1080 Multiplayer? No Link Official site Behind the Game is a one-person project: It was made by a man in his twenties and it's making a journey in the world. The game is an adventure in old rope and string, where you explore the ruins of your pre-digital past. You're player-as-novelist, identifying potential escapes as you travel. The game starts simply: at the beginning of the game you open up a treasure chest and discover a note that says, "in the next room, there is treasure." But you can use the note to guide you to an exit. The note doesn't lead directly to the exit, but it can show you a way to find the exit, with hazards along the way. As you collect scraps of string and tape, you can use them to build some objects that are used to solve puzzles and reach the exit. Up to three players can cooperate to solve a puzzle together. The number of players determines the difficulty of the game. It's a lovely sort of game, but it has a bit of a rough edge. There are a few areas, such as the gyromount, that are extremely finicky, and I had to keep restarting the game. The game will probably run on older machines, but it could be a struggle for top-end machines. And because the game uses only a handful of art assets, it would be an excellent candidate for virtual or physical gifting. There's a very nice atmosphere to the game. Even though you can't do any damage, you feel more powerful than the characters in the game. Sometimes, characters give you advice, which can be helpful. But ultimately, the game is a mishmash of bits and pieces from other games. If you've played The Book of Unwritten Tales, you'll notice the similarities. The puzzles are a similar mix of logic puzzles and a few puzzles where you'll have to look around, figure out how to solve it, and create the solution. And that's ultimately the question you're going to be asking yourself: Is this puzzle solvable, or does it require some outside-

A special envoy appointed by the US to try to negotiate an end to the fighting in Aleppo has arrived in the city to bring aid to its besieged civilians, including children. Michael Ratney, the special envoy from the United Nations, met with Syrian rebel commanders in the south of Aleppo on Thursday to discuss the means of delivering aid. Seven hours later, Ratney drove up to a devastated area outside of Azaz, the town of the Free Syrian Army where the embattled rebel leadership based their operations. He was given access to the eastern side of the city where he met with the generals of the rebel Free Syrian Army, as well as their political and military representatives. In the meeting, Ratney was given a tour of the devastation and the suffering of Aleppo's civilians by aid agencies, as well as rebel commanders. He was also offered a football pitch for use in the city, but the offer was turned down by the commanders, according to the chairman of the Aleppo Civil Council, Hussam Edin al-Maleh. "He wants to meet with the leader of the FSA in the region. He wants a meeting with members of the political committee of the FSA," said al-Maleh in an interview with Asharq al-Awsat newspaper. "The leader of the FSA says that they will accept only the visit of the envoy, the guarantor of the talks, after the talks, and that he is not permitted to be accompanied by a delegation." Rantney also proposed a humanitarian corridor linking the two areas - Aleppo and Idlib - that were isolated from each other by the Syrian regime's offensive against
